

Tiles – a scrap fabric quilt design by Mary Hogan

Block section 1

Section 2

This design was inspired by the tiles on a floor at my workplace. I took a picture with my cell phone and put together this design. The instructions here use a five inch square for piece A. Each block has a finished size of 11.25 in. square. Using 35 blocks (5 wide, 7 long) the finished top is 56.25 in. by 78.75 in. without borders.

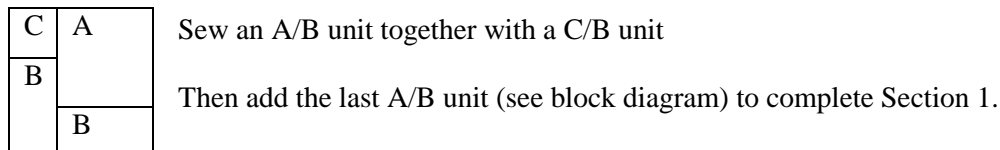

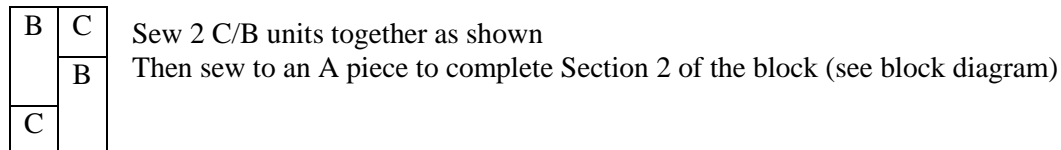

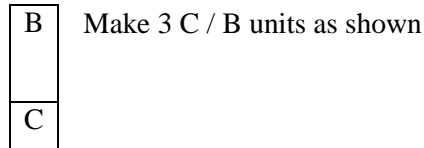

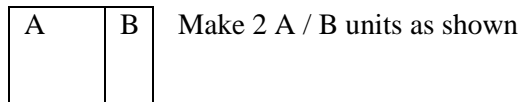

Cutting Instructions:

For each block cut
 A: 3 - 5 x 5 in.; 4.5 X 4.5 in. finished (total for all blocks - 105)

B: 5 - 5 X 2.75 in.; 4.5 X 2.25 in. finished (total for all - 175)

C: 3 - 2.75 X 2.75 in.; 2.25 by 2.25 in. finished (total for all - 105)

Block Instructions: this block is made in two sections (note the dashed line) and then sewn together.

Sew the two block sections together. After making all 35 blocks, arrange 5 by 7 blocks to make a pleasing layout. Sew rows and columns together. Add borders or more blocks if desired. Layer, quilt and bind the quilt.
